Coleman Faced With Major Telephone Problem; Must Raise Rates Or Have Local Exchange

Telephone Cable Into Coleman Has Deteriorated to Point Where it Will be of No Further Use in Near Future.

According to a report submitted by Mayor Abousafy to his council on Monday evening, Coleman faces a major problem in regards to telephone service.

Ten days ago, Mr. A. M. Munroe, of Alberta Government Telephones, Lethbridge, visited Coleman and reported on the condition of the telephone cable leading into Coleman to Mayor Abousafy. He stated that the cable had deteriorated to the point that it could not be of much further service.

Coleman is faced with two alternatives. Either allow a new cable to be installed, or set up a Coleman exchange.

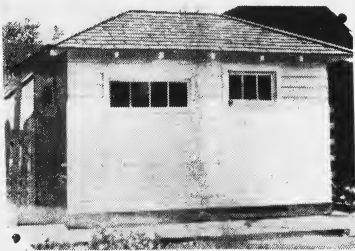

Should the new cable be put in, all phones in Coleman, personal and

business, will be on party lines, there being no direct lines as enjoyed by the business section at present. In addition the rate for private phone will be boosted from \$2.50 to \$3.50 and the business phones will be boosted from \$4.50 to \$8.75 per month.

The second alternative is to put in a local exchange. Then all local persons having phones will enjoy a direct line, there being no party lines. Private homes will pay \$2.50 as at present, while the business phone will be charged \$4.00 per month. However, in having a local exchange, all calls to Pass towns will then have a ten-cent charge, in other words free calls to other Pass towns will be a thing of the past.

Council discussed the matter at some length and will make further investigation before coming to a decision.

Lions' Child's Playhouse

Pictured above is the beautiful child's playhouse which will be raffled by Coleman Lions on Labor Day, Sept. 3. The house was built by Lion Bob Pattinson, aided by a few Lion members and Legion President George Derbyshire. It is approximately 7 feet by 10 feet. The body is painted white, with the windows trimmed in red and with red painted shingles.

In the interior there is a built-in cupboard, electric light fixtures and a window seat.

Tickets are on sale at 25 cents and can be secured from any Lion member. Tickets can also be secured at The Journal office.

The house is on display at the west side of the Legion Club on main street.

Mobile X-Ray Unit To Spend Fall And Winter In South; List Results Of Pass Clinics

General secretary's report for June, 1945; survey and prevention case-finding or early diagnosis

Prev. rep. April 1 to May 15, 1945	X-rayed	Active	Inactive	Abnor.

21,628	55	281
92,928	253	1,180
117,556	308	1,461

Several months ago an offer was made to the doctors of Alberta to the effect that the Alberta Tuberculosis Association would pay the transportation costs for any patient they wished to have x-rayed, provided the x-ray was authorized by the department of health and the doctor certified the patient was indigent and unable to stand the expense. The offer has been invoked to bring 17 Metis from Keg River to Peace River, 2 patients from Fishing Lake to Elk Point, 1 patient from Holden to Edmonton. This service is still available under the above conditions.

Pipe Band Donations Listed; Given Grand Support

Donations for the purpose of purchasing equipment for the Coleman Pipe Band:

Grand Union, \$25.00; Coleman Town Council, Coleman Legion, \$20.00 each; J. J. McIntyre, Coleman Hotel, \$15.00 each; Hillcrest committee, \$10.05.

Coleman Hardware, H. Zak, J. M. Allan, Holy's Grocery, Frank Abousafy, C. Nicholas, Sentinel Motors, \$10.00 each.

Coleman Pharmacy, J. M. Chalmers, Dr. Liesemer, Dr. Haworth, Coleman Elks, \$5.00 each. Hillcrest V-E Day committee, \$4.00. C. E. Huffman, \$2.50.

Enoch Williams, Pattinson's Hardware, Friendly Store, Coleman Cleaners, Jimmy's Coffee Shop, East Coleman Grocery, W. L. Rippon, Dr. R. K. Lillie, The Motor-drome, Toppiano's Grocery, Coleman Cafe, Modern Electric, J. A. McDonald, W. McGrath, \$2.00 each.

Coleman Meat Market, Janostak's Grocery, Red & White, J. A. D'Apollonia, J. A. Shields, F. Antrobus, Mrs. Kwasney, J. H. Boulton, Tom Lloyd, L. Hartman, White Lunch, Bencko's Store, E. R. Thomson, Coleman Journal, \$1.00 each. S. Ewanick, 50c.

LOCAL AIR CADETS ATTEND CAMP

On Monday morning several local air cadets left for No. 3 SPTS, Calgary, where they will camp for the next ten days. Those attending include FS J. McIntyre, Opl. Ed. Jackson, LAC P. Naylor and ACI J. Denholm.

Council Will Endeavor To Interest Trans Canada Air Lines In Pass Feeder System

C.B.C. to be Asked Once Again to Install Radio Booster in Coleman.

Regular meeting of the council was held on Monday evening. Present Mayor Abousafy, Councillors Cox, Dutil, Jenkins, Ramsay and Wilson.

A letter was received from Rev. W. E. Brown voicing Bishop Ragg's thanks for the concrete steps which lead past St. Alban's church from Fourth to Fifth streets.

Upon the suggestion of Mayor Abousafy, council will once again seek to have a radio booster located in Coleman. It is hoped that as the result of electrical equipment being eased that the federal government and the CBC will have no further excuse to put forward. E. G. Hansell's support will be asked in trying to get the booster.

The Crows' Nest Pass' vast industrial wealth and its population of approximately 10,000 persons will be brought to the attention of Trans Canada Airlines by the council who will seek to have the TCA recognize the potential business that could be obtained from this area by servicing it with a feeder system from the Coleman airport to the TCA terminal at Lethbridge.

Upon the advice of Councillor Cox council will cause to have laid two pipes from the present pipe line in the union cemetery to lead right up to the north fence of the cemetery, thus eliminating heavy carrying of water pipes for those persons caring for graves in that area.

It was also decreed that any person seeking the key to the gate of the union cemetery must henceforth place 35 cents on the line. Failure to return the key within a 24-hour period will cause the 35 cents to be placed in the town treasury.

Councillor Ramsay brought up the subject of concrete sidewalks throughout town. He suggested that

a major works project should be started this year if at all possible and pointed out the heavy pedestrian traffic which comes along the present sidewalk from Bobbitt's store to the Sika residence in West Coleman. He suggested that this be the starting point in council's aim to give Coleman concrete sidewalks throughout the residential districts. It was agreed that should Town Foreman Joe Malan-chuk have the time before bad weather sets in this fall that he put his men to work in laying this section of the sidewalk.

Discussion again arose over the water services to the homes just inside the town limits and facing east of Coleman. It was decided to write Coleman Light & Water Co. asking that these homes be given water service.

It was brought to the council's attention by Councillor Jenkins that water is escaping from the Grand Union disposal ground at the arena. Works & Property committee was authorized to make immediate investigation.

Application of Fred Weir to operate a photo studio in town was received and permission granted. Application was also received from Doug. Moores and Vic. Lilly to operate a filling station and garage and permission granted. Letters of approval will now be sent to the Dept. of Trades and Industry.

Communication received from Holy Cross hospital re B. Castellano was authorized to be given to Town Solicitor Bannan for his attention.

The latest water sample analysis reveals that the water is not as pure as it has been during the past several months.

Town Foreman Joe Malan-chuk was appointed town policeman during the absence of Chief Constable W. Antle.

Around The Town

The town is pretty sleepy these hot summer days and with so many leaving on holidays it looks quite empty and forlorn.

Town Foreman Joe Malan-chuk is quite proud of his "Stairway to the Stars" and as he crept closer to the top of the hill this week he reached out to find out how close he was away from reaching the stars. The steps should be finished by this week end.

It is many a year since our post-master allowed himself the luxury of taking a Sunday to himself. Last Sunday he and his family hied forth to McBain's Lake where Frank enjoyed a day's real relaxation. None of us suffered a great deal from the loss of our Sunday morning's paper.

The gathering spot these afternoons is at the bus depot, where eastbound busses meet the west-bound. Many persons are travelling, necessitating two busses following each other both east and west.

Jim Wilkie, of White Rose Service Station, is hard pressed to maintain the pace required by Coleman-ites desiring extra fuel tanks to carry them through the States of Idaho and Washington, both going and coming back.

Adverse road reports on BC highways is the main reason for the determination of local tourists to keep to the paved roads of the States, despite lower exchange rates.

It is quite possible that Coleman sportsmen will be called upon for a donation in the near future in order to help complete construction of the rearing ponds in the Pass. Other Pass towns will be called upon to share their cost of the rearing ponds.

Joe Lipovski, just back from a trip to the west coast, advises persons who like their red meat to

pack some with them, for they surely won't see much in the States. Lots of beer, says Joe, but nary a steak.

The former Auditor Halliwell and her husband and baby were in town last week. We promised to pass along the information that they plan on leaving for New Zealand at the end of this month for a holiday. Audrey's many Coleman friends join in bidding them bon voyage.

One of these fine summer days two local young men will pull off their trifle work clothes and put on garage uniforms and hang out their own shingle on main street.

Leo. Shannon has trouble aplenty getting an expert mechanic during the past three weeks. He looked happy on Wednesday morning and had high hopes that by this week end an expert mechanic would be on the payroll.

Bet Jim Korr would have had a big grin had Tex, home on vacation after two hours over Europe, only have said "O.K., Jim, the war is over, when do I start?"

Noticed that Bob Pattinson has three steel rods in his window. It is a long time since articles such as this has been seen in a window. Wonder if he has any bombs.

CHANGES BEING MADE TO CENTRAL SCHOOL

Contractor D'Apollonia has men busy this week taking out eight windows from the first and second storeys on the south-west side of Central school. These windows have not been used for some considerable time due to blackboards having been placed up against them. Once the glass and frames have been removed, stone will be placed on the exterior to match the rest of the building. In addition some eaves will be built on the Central school building.

The decorating of the class rooms has not yet commenced.

CHILDREN, CHEER!

Castor oil quota in Canada will be restricted for the balance of 1946, according to a prices board statement.

Fish & Game Notes

Someone, somewhere, once said that "figures are old and cold and passionless," which, besides being very euphonious, is also a great truth. Figures are old because they represent the only tangible expression of reality we have; they are the only refutation of the philosophy that "nothing is changeless but change," because the fundamentals that figures express are changeless. They have belonged always to the universe—they always will. They are older than time, and they, and only they, possess the elements and substance of permanence.

In the extraordinary process of the ages the rocky peaks of the mountains are levelled and the eternal hills are flattened, and we know only too well that the seas have no certainty in location; but 2 x 2 has always made four, and always will.

No matter how we may reason or argue, we cannot escape these fundamental simplicities, and no amount of casuistry can alter them. Add to what you have, and you have more; take away from what you have, and you have less. This is the unanswerable answer to this reason for conservation.

If you take three fish from a lake and replace only two sooner or later you will have no fish. If you kill three deer in a district while nature only replaces two, sooner or later you will have no deer. There is no escape from this mathematical process, it is inevitable as death, and as orderly as the procession of the years. It is so simple that only fools will not see it, and only racials will ignore it.

YOUR STREAMS

There has been considerable discussion regarding Glacier Creek, and your committee agrees that this stream should be diverted onto its original course instead of into Island Lake, to where it is now running. Mr. Watkins, the provincial superintendent of fisheries, was shown this creek when he visited the district a couple of weeks ago, and he promised to give it his consideration.

As it now stands Glacier Creek runs into Island Lake, which overflows, then the stream finds its way past the Summit Line Works and into Crows' Nest Lake. As the creek dries up later in the season, the fish that have run into Island Lake are trapped, as there is no outlet, and are suffocated in the winter. If we can divert Glacier Creek onto its original course, there is no doubt that, with some extra fertilization, Crows' Nest Lake will contain as many fish as it did some years ago.

Have you caught that big one yet?

Serviceman's Corner

By J. O. S.

The greatest single problem that we have to face today, and the one that concerns us most, is the successful re-establishment of our armed forces into suitable occupations. It is not necessary for me to warn you of the gravity of the sit-

uation if we fail in this our most important responsibility. The key to a successful and prosperous nation is full employment, and a satisfactory standard of living for all. Our discharged service personnel for this purpose fell into three distinct and separate classes, each with their own particular difficulties. First we have those who left jobs and joined one of His Majesty's forces. Second and by far largest we have those who never had a job, and who have no particular qualifications to fit them for any position in our scheme of organized society. Thirdly we have those whose education has been disrupted by the war.

As this problem is so important and involved I propose to discuss each class separately, and as fully as possible, in this and the next three publications of this column.

In the first case we have those who left jobs and joined the army, navy or air force. This problem has been made considerably easier for us by the passing of an act known as the Reinstatement in Civilian Employment Act, which clearly states that an employer must take back a man or woman into his employment who left his staff to join the services. Despite this straight forward legislation it is causing a great deal of comment among some employers. They state that they have had to train someone else for that particular job, increased their wages, and now hesitate to demote this man who has served so faithfully through times of stress and strain. Remember, this is not the attitude taken by all employers, and only goes to strengthen my assertion of the situations we have to deal with. Nevertheless, this is the legislation and must be adhered to. If anyone can furnish us with information that this order has been violated we will only be too glad to bring it to the attention of the proper authorities.

It is quite possible that as the result of service that they may not wish to continue with their previous trade or profession. If this be the case then we will have to deal with them under our second group. However, let me warn those who are contemplating a change to think the matter over carefully before before coming to a decision. With the volume of work that has to be accomplished, we must all do the jobs we are best qualified to do, in order that the various departments can give you the most efficient service.

If anyone has had any particular difficulty in regard to the above I would appreciate it very much if you would write and give me the particulars so that your case may be investigated.

Thank you, "Vet," from the Crows' Nest, for your timely suggestions, and I hope to take them up with the Council in the near future. The result will be made known to you through the columns of this newspaper.

AB J. H. Willett, recently returned from overseas, and Miss Doreen Cartwright, of Lethbridge, are the guests of Mr. and Mrs. H. Willett.

Health

LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

LOCKJAW MENACE

Use of tetanus toxoid as an immunization agent against lockjaw is advocated by Dr. Neles Silverthorne in an article in the current issue of "Health", official magazine of the Health League of Canada.

Stating that there is probably no more terrifying or painful disease than lockjaw, Dr. Silverthorne, on the staff of the Toronto Hospital for Sick Children and chairman of the National Immunization Committee of the Health League, adds that it menaces every child. The germs are widely distributed in the soil and in street dust.

Dr. Silverthorne emphasizes there is now available, either singly or combined with other immunization agents, tetanus toxoid.

"Tetanus toxoid builds up protection in the body of the child so that he or she will ultimately develop high protective levels of anti-toxin against lockjaw for a period of years," he writes. "When an injury occurs an additional dose of tetanus toxoid may be given—a very simple and non-reactive substance to administer. The importance of actively immunizing military personnel against tetanus has not been overlooked and we know that many of the Allied armies have received tetanus toxoid. Surely, it is equally important to protect our children against this disease."

"Naturally, one does not like to hear of the death of a child from lockjaw, yet no less than 31 children have died of this disease in the Hospital for Sick Children in 22 years. If parents could witness the cruel torture these children go through with this terrible disease, there would not be a parent who would not seek protection against lockjaw for their child or children."

Dr. Silverthorne says that the treatment usually given after any serious accident—an injection of tetanus antitoxin (horse serum)—lasts only from 10 days to three weeks. Also, the serum can cause reactions.

And, because "one does not wish to be constantly injecting materials into children" who are always injured, scratching or cutting themselves, he advocates use of, either singly or combined with other immunization agents, tetanus toxoid.

"Tetanus toxoid in three initial doses, followed in one year with a fortifying dose, which in practically all instances has no reaction, should be given to all children," Dr. Silverthorne concludes.

Another War Trophy

Table On Which Negotiators Signed The Munich Agreement

Another Czech war trophy has come to light. It is the table on which the British, French, German and Italian negotiators signed the Munich agreement dismembering the republic. Hitler ordered it taken to the monastery at Viskov Brod for some obscure reason where it was found with a number of art objects from Vienna, Paris and Amsterdam.

COMFORT—IN THE MODERN STYLE, is the keynote of cafe-parlor car 6551, recently converted and now in service on the Kettle Valley run between Calgary and Pentticon. Furniture follows modern lines, appears in the popular bleached-wood effect. Aluminum bells shade the table lamps; wider windows give better view of the mountain scenery and dark mahogany woodwork has been replaced by pastel shades of blue blending with blue grey of side walls and a rust-colored carpet. No. 6551 is first of six cars to be converted for the Calgary-Pentticon run. The other five will be similarly redesigned, air-conditioned and furnished between now and October. Above, a fair passenger enjoys the convenience of the magazine rack and reading lamp.

Matter Of Training

Some People Hear Things That Others Would Never Notice

A great naturalist, while riding in a noisy and crowded subway in New York City, suddenly exclaimed, "I hear a cricket!" His friend could not believe it, for he had heard nothing, but after a short search the cricket was found in the corner of the car. The friend marvelled that he could detect such a sound in the midst of all the city noises. Later, when the naturalist and his companion were walking up a busy street, he dropped a tin can on the sidewalk. The companion stopped, whereupon the naturalist remarked, "We hear that which we are trained to hear."—Wesleyan Christian Advocate.

Gifts For Rescuers

R.A.F. Fliers Appreciated Kindness Of Villagers In New Guinea

Natives in a New Guinea village saved the lives of two crashed fliers of the R.A.F. They fed them and guided them for two weeks past Japanese positions.

Soon after the airmen got back a plane flew over the village and dropped parcels containing brightly colored calico, trousers, shorts, rain bladders (greatly prized because they can be made into so many things), barbers' scissors, knives, jackets, fishing lines for stringing bows, medical supplies.

And a toy dog for Lazarus, the small son of the village mission catechist.—Australian Newsletter.

Glass is one of the oldest known materials.

WORLD HAPPENINGS BRIEFLY TOLD

Diners were arrested at their tables when police raided one of the super black market restaurants in Paris.

Blacksmiths in Norfolk and Suffolk are being offered subsidies to train apprentices in the old-fashioned art of horseshoeing.

Britain's ration of tea has been increased to 2½ ounces weekly per person, as against the present two-ounce ration, the Ministry of Food said.

There is little prospect of Britain building a new liner of the dimensions of the 80,000-ton Queen Mary and Queen Elizabeth, an official of the Cunard White Star Line said.

Five thousand students are expected to register at the University of British Columbia this September, Dean Daniel Buchanan said. The university is built to accommodate 1,500.

The "flying boxcar", newest type of freight-carrying plane, already in operation between more than 50 United States and Mexican cities, shortly will be flying between Canada and United States.

Military authorities announced that during the period between VE-day and June 30, 31,772 service personnel passed through Halifax. They arrived in 14 ships and left the city in 87 trains.

Col. E. A. Baker, managing director of the Canadian Institute for the Blind, told the institute's annual meeting plans have been made for a post-war travelling clinic to visit Eskimo settlements in the Arctic.

Hitler offered the equivalent of \$225,000 and the highest honors bestowed by the Reich to any U-boat crew who could sink either the Queen Mary or the Queen Elizabeth, Britain's biggest liners, the London Daily Express reports.

Could Start Over

Germany Has Wonderful Chance To Break With The Past

A 100-year-old nation is still young. She can still absorb education and learn, new ways, if she has a mind to it and puts her heart into it. Germany today hasn't much else to do. She is no longer a going nation; she is down and out; she has lost everything. Now she has a chance to break with the past and start life over again. It is a chance that many a man and many a nation can envy her.—New York Times.

SUNDAY SCHOOL LESSON

ABRAHAM'S PRACTICE OF BROTHIERHOOD

Memory Selection: Let there be no strife, I pray thee, between me and thee, for we are brethren. Genesis 13:8.

Lesson: Genesis 13:15.

Devotional Reading: 1 John 3:13-24. GENESIS 13:1. And Abram went up out of Egypt, he, and his wife, and all that he had, and Lot with him, into the south. 2 And Abram was very rich in cattle, in silver, and in gold. 3 And Abram said unto Lot, let there be no strife, I pray thee, between me and thee, and between my herdmen and thy herdmen; for we are brethren. 4 Is not the whole land before thee? Separate thyself, I pray thee, from me: if thou wilt take the left hand, then I will go to the right; or if thou take the right hand, then I will go to the left. 5 And Lot lifted up his eyes, and beheld all the plain of the Jordan, that it was well watered everywhere, before Jehovah destroyed Sodom and Gomorrah, like the Garden of Jehovah, like the land of Egypt, as thou goest unto Zoar. 6 And Lot chose him all the plain of Jordan; and Lot journeyed east; and they separated themselves the one from the other. 7 Abram dwelt in the land of Canaan, and Lot dwelt in the cities of the plain, and moved his tent as far as Sodom.

Abraham's life and faith is the subject of fourteen of the fifty chapters of Genesis. Each of the narratives of the patriarch is a literary unit bringing out like a flashlight picture some trait or incident in his life. Abraham's was so loyal to his religious convictions that he refused to be driven back to Babylon and the Babylonian gods by any hardship. Consequently, when there came a great drought in Canaan, he drove his flocks and herds down to Egypt for pasture. The account of his sojourn in Egypt is set forth in Genesis 12:10-13:2. In Egypt the families of Abraham and Lot were in danger of being absorbed among the inhabitants. Abraham's promise of deliverance from the dangers of a foreign country illustrates God's mercy rather than the patriarch's merit.

More than half of the population of Peru are Sierra Indians.

Used Astrology Too

British Got Many Valuable Hints From Hitler's Horoscope

Among all the secret weapons listed as "now it can be told", none enlarges the imagination more than hard-headed John Bull's use of astrology.

The story is that, aware of Hitler's faith in such readings, the British had the Fuehrer's horoscope cast every day, just as he did. Thus they knew as soon as he what hints he would get from the stars and regularly stole his famous intuition.

The plan worked, too, according to the report. They were able to forestall several of his moves.—Chicago Daily News.

LIFE'S LIKE THAT

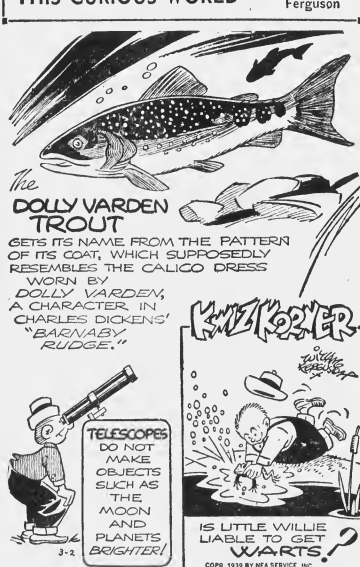

By Fred Neher

"I used to help Edgar with the dishes . . . but in times like these I think he should learn to be self-reliant."

THIS CURIOUS WORLD

By William Ferguson

ANSWER: Not from the frog. Youngsters are more likely to have warts than older persons, and toads and frogs are more often handled by them. But there is no connection.

REG'LAR FELLERS—Ah, Rare Indeed

BY GENE BYRNES

Delicious and Refreshing

"SALADA" ICED TEA

OUR COMPLETE
SHORT STORY—

Romance, Limited

— By —
ARTHUR ST. CLAIRE

McClure Newspaper Syndicate.

There's no doubt about it—Sally Lane was born many years too late. She just didn't belong in this matter-of-fact whirling world of today, stripped of romanticism and chivalry. No indeed, she would have been much happier way back when men were uninteresting in their gallantry toward women.

Swing music wearied her—how soothing the strains of strings and flute must have been. Jitterbugs appalled her, but ah, the minuet... Sally loved history. At least that part which dealt with famous women and the attentions showered upon them by their lovers. Du Barry... de Maitenon... Cleopatra... Josephine... Lady Hamilton. She knew them all... she envied them.

Alex, a young plumber, had asked Sally to marry him, but Sally could not bring herself to say yes. And one can hardly blame her.

Then fate took a hand. Sally met Armand Delacruz, reeking with Shakespeare and poetic phrases, both on the stage and off. The stage? Well... the little community theatre.

"Fie on this, my stupid tongue, which knows no better word than 'charmed'." It was actually what he said upon his introduction to her. Right off page forty-three, but it clicked with Sally. And the deep courteous bow that went with it... Oh, boy!

He walked home with her. She didn't say a word; just drank in his every word and gesture, and this Armand had plenty on the ball. He left her at her door, fluently rolling off "this sad, fond parting" and... believe it or not, kissed her hand with a great and dignified flourish. Sally went down for the third strike.

In bed that night, after she'd thanked God for sending Armand around, there he was in her mind's eye, cutting a wide swath in the court of Elizabeth... garbed in flowing scarlet cape embroidered with, in doubtless, striped lights, clinking sword, Cordon-rouge and a little Vandeyke beard. The beard she shaved off instantly... it didn't become him.

But when she saw him the next night, he was somehow still wearing the same shabby tweed. Sally didn't mind because he took her to an expensive little Italian restaurant, where she learned about "... a jug of wine and thou...". Somewhere in this wide, wide world could Armand have found a better audience than little Sally.

The night he gave her a load of the Indian Love Lyrics, they were rowing on the lake in Central Park. He'd just rested the oars when he said, "... whether you drifted down my way... on the great sad river of chance and change... who shall say...". The boat was drifting toward a motor launch filled with squealing youngsters, and when Armand had successfully dodged it, he further quoted, "... take what fate or the gods may give...".

Sally couldn't wait until morning to tell her mother that Armand had at long last expressed his love for her... undeniably. "Mother... Mother," she said after waiting her, "he's so grand... so romantic."

"That's fine. Go to bed," said her mother.

"Mother... he's so grand... so romantic! I think... I think he's going to ask me to marry him."

Here's a SENSIBLE way to relieve MONTHLY FEMALE PAIN

Lydia E. Pinkham's Vegetable Compound not only helps relieve period pain but ALSO accompanying troubles like bloating, constipation, nervousness, and when due to functional monthly disturbances. It's one of the most effective medicines for this purpose. Pinkham's Compound helps natural. Follow label directions. Try it!

Lydia E. Pinkham's VEGETABLE COMPOUND

Money And Greatness

Jack Miner, Canadian Naturalist,
Left A Small Estate

The impression prevails that in order to have influence and fame, a man must be in possession of wealth—the more money he has, the greater, and more extended, his reputation as a great citizen.

But this theory is completely blasted by the probate of the will of the late Jack Miner. This famous Kingsville Canadian naturalist's total estate consisted of real estate valued at \$10,500, being the Government valuation of his farm in connection with his bird sanctuary which is owned by the Jack Miner Foundation, and personal estate and effects valued at an additional \$1,745, made up of personal belongings, cash in bank and a small insurance policy.

Jack Miner was not blessed with great worldly wealth, but he possessed something far more valuable—the admiration and affection of his fellowmen. He was an outstanding example of a comparatively poor man of modest education, who rose to the ranks of the internationally famous because he had a great heart full of love for all of God's creatures. He befriended birds and animals, and through his writings, and addresses, known in all parts of this continent, he instilled into the minds of men and women a love for the beauties of nature and the responsibilities which human beings bear towards the lower forms of animal and bird life.

At the time of his death he was rated Canada's best known private citizen because he had a great heart full of love for all of God's creatures. He befriended birds and animals, and through his writings, and addresses, known in all parts of this continent, he instilled into the minds of men and women a love for the beauties of nature and the responsibilities which human beings bear towards the lower forms of animal and bird life.

• **Pride in Canada:** The Hanover (Ont.) Post says if we Canadians aren't a proud people we should be, our history and circumstances giving us cause to be; holding that in comparison with many other countries of the world, Canada would occupy far from a lowly position if living up to our highest knowledge were the test to be applied. "This righteousness expresses itself for the Sabbath Day, high standards of morality, private and business, and the general atmosphere of high idealism found within our borders. These things find expression in our laws and customs and have placed this Dominion high in the rank of world nations. Recognize yourself?"

• **Reaching his 50th year** as editor of the Barrie Examiner, James A. McLaren was presented by townsfolk, 250 of them gathered at an affair in his honor with an order to have his portrait painted by artist Marion Long, R.C.A., O.S.A.; newspaper friends in Class "A" Weeklies of Canada with an oil painting by Herbert Palmer, R.C.A., O.S.A.

• **Oddities in the Canadian scene:** At the Stampede at the Peace River an event was the wedding on horseback which united Miss Norcen Burck and Melvin Stewart, both of North Pine... Up in years but tough, Robert Sinclair, 76, just suffered a shaking up, and was around next day after being struck by passenger train at Kamloops, B.C. He was thrown clear by an engine; completely deaf, he was walking on the right-of-way... Rene Martell, foreman at Donald's Webster camp, near Grand Prairie, Alta., returned to his office, and was knocked off kilter when a big black bear came bounding through the glass in the door, by which it had entered in his absence... An item in the Brampton, Ont., Conservators tells of a Caledon resident, Bert Limber, purchasing a 1918 Jewett car in good running order which has not had a license plate for 18 years... Nancy Crowther of Lund, B.C., heard a disturbance, found four cougar attacking the family goat herd. He shot the mother and three young, bagging \$80 in bounties besides.

• **According to the St. Thomas Times-Journal,** a district school teacher got this letter from an late mother: "Dere Teacher. You keep telling my son, Ronald, to breathe with his diaphragm. Maybe some of the rich children can afford diaphragms, but how about when their fathers make only \$3 a day, and he has got five children to keep? First it's one thing and then it's another thing, and now it's diaphragms. That's the worst thing yet."

• **Longest fishing pole in Canada:** A. A. Newman of the Indian Head (Sask.) News turned in CKPL, Fort Frances, Ont., and answered a request for anyone hearing the broadcast. A few days later came a dripping box by express, and a 6-ft. walled pole packed in ice. Mr. Newman had been "most distant listener of the month."

• **Beware of crowds in public places.** Note exits and make a cool-headed path to them in case of panic.

Russia Has Good Idea

Is Giving Homes To Generals Instead
Of Cash Awards

The New York Herald Tribune says: Great Britain in past years has granted peerages and cash awards to its outstanding war leaders. The total cash grants to the Duke of Wellington came to more than \$4,000,000, not including an annuity. Field Marshal Sir Douglas Haig received an estate, an earldom and approximately \$500,000 in cash. A new wrinkle was devised in Moscow, where there is an acute housing shortage. Spacious eleven-story apartment houses are being built in sections of the city for the generals who beat the German Army on the eastern front.

Swarms Of Frogs

Village In Britain Had A Lively Time With Invasion

An army of frogs, hundreds of thousands of them, invaded the small village of Newton, near Northwich, Glamorgan. Women with dustpans and brushes, and men and children with sticks and shovels, fought a day-long battle with them.

The frogs, an inch in size, migrated from a meadow, flooded by a storm, to a hayfield on the other side of the village.

Seven houses that stood in their way were "rushed." The frogs entered underneath the back doors, hopped along the passages, and went out under the front doors.

Housewives set up barricades. Newspapers were stuffed under all the doors.

"When I came downstairs my house was alive with frogs," said villager Mrs. George Farr.

"The passage looked like a moving brown carpet, and I had to walk over a seething mass to get to my kitchen. My living room was full of them."

Mrs. John Roberts said: "I got a dustpan and brush and began sweeping them out, but still they came. It was a dreadful experience."

—London Daily Mail.

Find German Weapon

Gun Partly Installed In Coastal Trenches Near English Channel

A German gun designed to fire six-inch shells against London has been found, partly installed, in sandy coastal trenches near the English Channel.

It looks like an oil pipeline. Additional sections of tubing supply "booster" chambers giving initial muzzle velocity of 4,500 feet a second. The range is 82 miles.

Little-known German weapons found include the world's biggest gun, a 1,750-ton railway gun firing an 8½-ton shell 30 miles and used against Stenstapel, a 15-inch rocket projector on a Tiger tank chassis; and a 10-ton, self-propelled mortar firing a projectile of more than a ton 1,400 yards (slightly more than three-quarters of a mile).

NOTES AND COMMENTS

Should Have Proper Road Markers

The tourist season is now in full swing and a number are finding their way through the Pass. Each year we notice tourists stopping local citizens and asking where the main road runs through town.

It shouldn't be necessary to have tourists ask this question. The town should have an easily read road marker at McDonald's corner on Second street leading the tourists on to main street. As it is those tourists who are not on the look-out ride straight up to the bank corner and then wonder where to turn next.

We are unfortunate that our main street is not on a straight line with Number 3 highway as it leads in from the west and since this is so we should aid the tourist with a proper road marker.

Prefer Local Agency

Coleman telephone owners are faced with two choices. Sanction a new cable to be strung up from the Blairmore exchange to Coleman, or have a Coleman exchange. Should the first be adopted the rates will be increased to a point where many phones will be taken out of many houses and a number of business places. Each phone, private or business, will be on a party line. Should the second choice be adopted then Coleman will have its own telephone agency, rates will be the same for the homes and 50c less for the business places. The only difference will be that all calls from Coleman to neighboring Pass towns will be chargeable.

A monthly charge of \$8.75 for a business phone is pretty stiff rate and we hazard a guess that should it go into effect it would be about the highest rate in the province. What we cannot understand is why Coleman should be asked to buy this cable through increased rates. Isn't it a provincial telephone system and if cables deteriorate is it the fault of Coleman telephone owners?

Before a decision is reached it is very probable that Mr. Fallow will be interviewed on the matter. We can't see the fairness of asking Coleman to bear the entire brunt of a new cable.

However, should Coleman be forced to make a choice we put forth the suggestion that she ask for her own telephone exchange. Business rates would then be \$4.00 and private phones \$2.50. Each line would be a direct line. It would require forty-eight calls to Pass towns per month before the rate would reach the \$8.75 which would be charged if a new cable was constructed.

Other features which we would point out. The service would be a 24-hour service. It would require employment of three Coleman girls. Then there is the publicity angle. All long distance calls would come direct to Coleman and not be relayed through Blairmore as at present. Coleman would then get the added publicity. It would also give us a government building which we have long agitated should be located in the largest town in the Pass.

Coleman Needs Rehabilitation Committee

Over 500 Citizens' Committees or Rehabilitation Committees, call them what you like, have been organized in cities, towns and villages all across Canada to see that the veteran gets a square deal.

Coleman is not one of those 500, but it should be. Quietly and unobtrusively, the Citizens' committees go about making life easier for the returned man by helping him in his troubles and lending an understanding ear.

In dozens of different ways, depending on the ingenuity and good-heartedness of the townfolk, the Citizens' committees do their best to make the returned man feel at home. One community writes him a letter before he's even discharged, telling him what they are planning. Another sends him a certificate of appreciation, a "thank you" card, printed on the best paper available. Another town sends him a personal letter, asking him what he'd like to do, and what they can do for him.

Another place waits till he's been home a couple of months, then sends him a personal letter to find out how he's getting along. In almost every case they find there's some little adjustment that can be made, some problem—business, economic or otherwise—in which the experienced men of the committee can be of service.

One thing that has been brought to our notice by an ex-service man recently returned from overseas is the acute housing shortage at present prevailing here. He and his family have so far been unsuccessful in securing housing accommodation. Undoubtedly this same problem will be faced by others as they return home.

The National rehabilitation scheme makes some provision for aiding ex-service men to build their own homes. If a local committee was set up and made one of its objectives the securing of suitable lots for these men then their gratuity plus the aid received from the National rehabilitation committee on the securing of proper lumber would enable them to beat the present housing shortage condition.

Letter To The Editor

The Editor, Dear Sir:

In view of the interest now being taken in freight rates owing to the application by railway companies for an upward revision, we direct the attention of your readers to the following resolution passed in February, 1944, by the Alberta Farmers' Union:

That whereas western Canadian prairie provinces and the province of Alberta in particular have been subjected by authority of the government of Canada to the imposition of crushing railway freights, outward as well as inward bound, whereby the trade, industries and agriculture of this province have been penalized and their success obstructed, and

Whereas the shipping of feed grains to the province of Ontario free of freights as at present, whereby hog raising in the province of Alberta has been obstructed is unfair and if continued should be applicable to equivalent products of other prairie provinces,

Whereas Alberta imports in round figures about 80% of all goods sold from extra provincial points the incidence of these railway freights affect every home in this province. Thus hardware and canned goods from Montreal to Edmonton or Calgary pay 2½ times the freight on the same goods transported from Montreal across the mountains to Vancouver, and

Whereas we ensure the continuance of special privileges in respect of railway lands by the government of Canada whereby the taxation base of this province and many municipalities has been narrowed,

Therefore we request the provincial government to make representations to the dominion government with a view to getting relief in respect of the freight rates to Alberta, because Alberta public lands and minerals were in large part alienated for the purpose of main line construction. That such land and mineral alienation was paid for so far as land subsidies were concerned by the three prairie provinces out of nine. That in Alberta this transfer of railway lands amounted to 13,120,000 acres.

A copy of this resolution has been sent to Premier Manning, also Edmonton and Calgary Committees of Commerce—H. E. Nichol, secretary Alberta Farmers' Union.

NOTE COUPONS ON JULY 19

No butter coupon is valid July 19, for this date marks the week Canadians skip a butter coupon under the curtailed ration plan.

There are 12 preserves coupons due July 19, including two regular coupons, P2 and P3, valid under the regular preserves rationing schedule, and ten preserves coupons, P4 to P13 inclusive, good for the purchase of five pounds of sugar for canning. All preserves coupons will purchase half a pound of sugar as alternative to preserved fruit, jam, honey, syrup or other rationed sweets/preads.

Sugar coupon 61, good for one pound of sugar, is valid July 19.

LOCAL NEWS

Mrs. John Jones is visiting relatives in Coleman and Blairmore.

Herb. Snowdon is in town visiting relatives and friends.

Harvey Murphy passed through town on Tuesday afternoon.

Mr. and Mrs. James Fairhurst are vacationing at Calgary.

Jimmy Bennie, of Lethbridge, was a local business visitor during the week.

Murdoch McDougall will leave shortly to take up residence at Nelson, BC.

Mrs. Jack Richards has been a patient in the local hospital for the past week.

The Misses Gladys Fry and Marie Ledieu are spending a holiday at Lethbridge this week.

Wilber Cox, RCAF, based at the west coast, is spending a furlough visiting friends here.

Mrs. Helen Milley and children, of Fernie, are the guests of Mr. and Mrs. Whitehouse.

Mr. and Mrs. S. Korchuska and family are spending their holidays at Radium, Banff and Calgary.

Mr. and Mrs. John Ondrick have returned home after two weeks vacation spent at Rimbey, Alberta.

Mrs. Douglas Moores has as her guests two sisters and a friend from the Pacific coast.

Mr. and Mrs. Peter Topak and daughter are spending a vacation at High River and Calgary.

Mr. and Mrs. R. Morris left on Tuesday for Calgary and Drumheller where they will spend their vacation.

Miss Minnie Olechow, of the Grand Union hotel staff, left on Monday to spend her vacation at Edmonton.

NS Penny McDonald returned to Tofino, BC, after spending a furlough with her parents, Mr. and Mrs. J. A. McDonald.

A son was born to Mr. and Mrs. Casimir Pozniak, of Coleman, at the St. Eugene hospital at Cranbrook on June the 23th.

Mrs. George Booth and children, who have been residing at East Coulee for the past few years, have taken up residence in Coleman.

Cpl. and Mrs. Allister MacQuarrie, of Calgary, spent a few days this week the guests of the former's parents, Mr. and Mrs. Charles MacQuarrie.

Mr. Andy Vrskovy left on Wednesday for Calgary, where he will spend a few days. His brother, John Vrskovy, is also in Calgary on business.

Mr. and Mrs. A. Dewar returned home on Tuesday, following a visit to Calgary Stampede and then a visit spent with their daughter, Mrs. R. Donaldson, at Lethbridge.

Spr. Donald Kettlys is spending a few days leave with his parents, Rev. G. A. and Mrs. Kettlys. Spr. Kettlys has been training at Chilliwack during the last few months.

Mr. and Mrs. Charles MacQuarrie and family left for Saskatchewan for their vacation. They will pick up Miss Joan at Lethbridge, who will accompany them on the trip.

Mr. and Mrs. Frank Vincent and family are spending their vacation at Calgary and Mayerthorpe, Alberta. They will be the guests of Mrs. Vincent's sister in the latter town.

Mr. Wm. Cole, of Victoria, is the guest of his daughter-in-law, Mrs. W. V. Cole, and will help her during the summer months to manage the chain of Cole's theatres. Pte. Bill Cole is expected from the east on a furlough within the next few weeks.

Henry Vincent celebrated his fifth birthday on Thursday, July 12, by inviting a number of his young friends to his home. The youngsters enjoyed themselves with games, following which Mom served a dainty luncheon, which all enjoyed. Henry received a number of little gifts from his young friends.

On Sunday morning Mr. and Mrs. Merle Nilsson and daughter left for their new home at Nelson after almost three years residence in Coleman. Mr. Nilsson has operated the Nilsson Radio Service, with a territory reaching from Bellevue to Fernie, BC. He has already taken out a BC business license and will follow his trade in the Kootenay city of Nelson.

In Memoriam

RAYMAN — In Loving Memory of our dear mother, Mrs. Mary Rayman, who passed away on July 23, 1944.

No one knows how much we miss you,

No one knows the bitter pain We have suffered. Since we lost you

Life has never been the same. In our hearts your memory lingers,

Sweetly tender, fond and true; There is not a day, dear mother, That we do not think of you.

Ever remembered by her sons and daughters.

—V—

WORKERS FOR HOME BUILDING AND HOME BUILDING SUPPLIES

In order to speed up home building this year, special arrangements have been made for the early release from the armed forces of experienced workers for home construction and the production of materials for home building, according to an announcement made on

Monday by Hon. Humphrey Mitchell, minister of labor.

"Canada's program calls for the building of 50,000 homes immediately," the labor minister said, "and the continuing labor shortages are seriously hampering the project. An obvious and primary need of homes arises out of the fact that living quarters must be found for members of the armed forces on discharge."

The labor minister explained that building contractors wanting to build homes, and employers producing materials needed for home construction, should make application to the nearest industrial selection and release committee, in order to secure the speedy release from the armed services of any man they know to be experienced in the work of house building, or in producing essential building materials. There are eleven of these committees, located at Halifax, St. John, Quebec, Montreal, Kingston, London, Toronto, Winnipeg, Regina, Edmonton and Vancouver.

"We wish to appeal to building contractors wanting to build homes and to producers of building materials," Mr. Mitchell said, "to contact their district committee immediately, to file applications for the release of any man they know to be experienced in these lines of work, who is now in the armed services, but who can be put to work at once to help the house building program. Also, trade unions interested may file applications."

The minister stated that employers and unions must give the name, postal address and other particulars regarding the men asked for. At the same time, he pointed out,

applications need not be restricted to skilled tradesmen, but requests for experienced unskilled or semi-skilled workers will be entertained where the indication is that labor shortages are interfering with home building.

The labor minister concluded by

saying that civilian construction workers, who are now engaged in other work, are also being sought for house building by the employment offices. "In home building all classes of construction tradesmen are needed, but the men whose services are most in demand by

contractors are carpenters, plasterers, bricklayers, plumbers and electricians," Mr. Mitchell explained. "Any men who have experience at these trades on home building will be given their release from any designated industry by employment officers upon application."

The WEST LOOKS FORWARD!

With Earnest Faith and Vigorous Work; Sound Preparation and Courageous, Far-Seeing Plans!

Yes, the West is tackling the job—largely through the thorough and well-planned projects conducted by the Departments of Agriculture of the several Provincial Governments and University extension courses.

Calf Clubs, Swine Clubs, Bacon-letter competitions; women's and girls' Home-maker Club work, Kitchen Improvement competitions, and other courses and projects, now find fulfillment in prize-winning sales of show beef, awards in numerous ways for the past seasons' study and work. And greatest reward of all, the wide extension of learning and knowledge to all who participated.

To planners and leaders, teachers and students and club members, EATON'S offers cordial congratulations on their work and attainments, and hopes to have the privilege in each succeeding year of continuing to help in this Winning of the West to a new and greater future.

T. EATON CO.

EATON'S

Rationing helps the FARMER

HERE'S HOW!

- Rationing assures everyone a fair share of scarce foods. Without rationing, farmers might get all the butter they need; they might not get sugar. City dwellers might get sugar but no butter.
- Rationing helps to keep prices steady.
- Rationing has assured farmers sufficient ammunition to protect their crops and livestock.
- Rationing makes it possible for farmers to get coupons to feed harvesters and other transient farm workers.

RATION BOOK

The FARMER helps Rationing

HERE'S HOW!

- By collecting and turning in the coupons acquired against the use and sale of butter and the sale of honey and rationed maple products.
- By writing to the Local Ration Boards for application form RB-77 as SOON as they know definitely that transient labour rations will be needed to feed extra help hired for periods of less than two weeks.

Rationing is not intended to add unnecessarily to the burden of Canadian farmers who, faced with shortages of labour, materials and machinery, have continued to respond to repeated calls for greater production.

It is a protection against waste . . . shortages . . . Inflation.

THE WARTIME PRICES AND TRADE BOARD

INQUIRIES RECEIVED FROM MANY LIBERATED COUNTRIES FOR PURCHASE OF HORSES

OTTAWA.—Inquiries from several European countries on possible purchases of work horses have aroused hopes that overseas sales will solve a vexatious surplus situation in western Canada.

The Netherlands, Norway, France and Belgium are understood to be among nations asking about Canadian work horses and, if agreements are completed, purchasing for immediate shipment will start shortly.

Thousands of sound work horses on the prairies have grown fat in idleness in recent years, their place in farm operations taken by tractors. Farmers, who have retained their sentimental attachment to horses, have been reluctant to slaughter surplus animals and pastures which could have been used for cattle or growing feed crops have been plucked bare without return.

Recently a horse processing co-operative arranged for the operation of horsemeat plants in Swift Current, Sask., and Edmonton, and when these plants get into operation in a few months it is expected hundreds of horses will be processed by them. Part of the meat will be for human consumption as the co-operative has a contract to supply 10,000 tons of horsemeat to Belgium and hopes for sales to other countries, such as China.

Officials said it was unlikely that the prospective European purchases would approach the bonanza of the First Great War, when the United Kingdom and France, among others, purchased thousands of horses in Canada.

Horses are needed on the small European farms which never have been mechanized.

Authorities said a substantial export of horses should not interfere with operations of the horsemeat plants. The Netherlands desires work horses and other nations lighter breeds, but all make the qualification that the animals be in top condition. This will mean that the best surplus animals will be exported and lower grades will go to the horsemeat plants.

Surplus horses in the prairie provinces have been estimated at 80,000, most of them broken and ready for work. If sale agreements are made, purchases for foreign governments probably will be made through the federal department of agriculture.

GET NO PRIORITY

Rioters At Aldershot Wait Their Turn To Come Home

LONDON.—Hon. Ian Mackenzie, Canadian veterans affairs minister, told a press conference that Canadian soldiers in repatriation depots at Aldershot had not gained increased shipping priority through their window-smashing disturbances.

In answer to a question he pointed out his department did not deal with priority for return but added: "It has been carefully worked out and those men will not come back before their turn."

PETAINE'S TRIAL

LONDON.—The treason trial of Marshal Petain, former Vichy chief of state, may open Aug. 20 in the Paris Senate building, scene of many great French trials, Paris radio reported.

IMMENSE STORES OF MEAT WILL BE REQUIRED THIS YEAR BY UNITED KINGDOM AND EUROPE

OTTAWA.—The fondest hope of agricultural Canada today is that 1945 feed production will be good.

Some authorities say there is a tendency to think of it as "a crop of destiny," a development on which the welfare of millions of people in Canada and abroad will depend.

The factors are these:

1. Immense stores of meat are required by the United Kingdom and by Europe. Hog production has declined in Canada and the Dominion probably will do no more than meet her minimum contract for the provision of bacon to the United Kingdom. Cattle production is up, but the shortage of pork has meant greater purchases of beef and shipments of this meat to the United Kingdom will be slender at least until ration-

MUST BE WATCHED

Germany Is Well Prepared To Plot Another World Conquest

WASHINGTON.—A United States senate committee proposed that congress keep an eye on German disarmament for at least 15 years, warning that the defeated country is in better shape to fight than she was in 1918.

The report, submitted by the military subcommittee which visited European battlefields and conducted hearings, urged:

1. Complete analysis of records of the German government and its industrial set-up.

2. For the first three or five years, quarterly reports to congress by the Allied control council on the progress of steps to prevent the German war potential from getting a start again. Annual reports for at least 15 years on the same subject.

Chairman Harry M. Kilgore (Dem.-Va.) declared in the report:

"Germany in defeat remains a major threat to the peace of the world. . . . is better prepared to implement her plot for world conquest than she was at the end of the World War One."

FAST GERMAN PLANE

Was Nearing Production Stage But Did Not See Action

MUNICH.—Americans have found a German plane which has propellers in the nose and tail and easily runs away from the fastest Allied fighters. The plane, which did not see war action, was nearing the production stage necessary for combat when Germany surrendered.

About 40 of the craft, some in flying condition, were seized at one airfield. Others, partly destroyed, were found at other fields. The plane was built by Dornier and was designated the DO 335.

Flight tests showed the cruising speed to be 450 miles an hour above 25,000 feet altitude. Its top speed is considerably higher. Using only the nose engine the plane made 350 miles an hour at 19,000 feet.

BORDER CLASH

French Forces Fire On A Town In Lebanon

BEYROUTH.—A British announcement said two civilians were killed and three were wounded in a shooting affray at the town of Banias on the Lebanon-Palestine border.

British authorities said French forces fired on the town for 20 minutes with rifles, machine guns and mortars, then stopped upon representations of the police commandant. British armored cars were sent to the scene.

LONG WAITING LIST

Many Have Booked Passage For Trans-Atlantic Air Trip

OTTAWA.—Applicants for trans-Atlantic air passage on the Trans-Canada airline fare-paying plan to be inaugurated Sept. 1 have quite a waiting list ahead of them.

Air priority officials said they had a waiting list of 300 names which started to accumulate two years ago. New reservations will be accepted but they cannot be filled until the waiting list has been cleared.

ing is reimposed in Canada in a few weeks.

2. United States plans for expansion of livestock production are threatened by unfavorable weather conditions and shortages of labor and materials. These conditions may cause the 1945 feed crop there to be the smallest since 1941. A reduction in United States livestock supplies will mean greater dependence on Canadian production at a time when food problems are the most serious of modern times.

In many parts of Canada the 1945 crop got away to a slow start, with seeding delayed by inclement weather. But officials said that the condition is not alarming and with suitable weather Canada might well enjoy a bumper crop of feeds in most urgent demand.

MUSIC IN THE MOUNTAINS—Donald MacLean, champion piper from Scotland, while with the Lord Lovat Scouts in the Canadian Rockies, strikes up a tune to the accompaniment of the totem pole orchestra on the grounds of Jasper Park Lodge. Before they went into action in Europe, the famous scouts spent a winter in Jasper National Park training in mountain warfare.

ITALY NEEDS WHEAT

ROME.—Capt. Ellery W. Stone, chief of the Allied commission for Italy, said in an interview reported by the Italian news agency Ansa, that, due to a poor harvest, Italy might have to import 1,200,000 tons of grain, more than double the amount previously estimated as sufficient for this year.

FACES MANY CHARGES

OSLO.—A formal indictment against Vidkun Quisling has been made public in Oslo. Quisling is charged with 716 homicides, treason, violation of the Norwegian constitution and illegally amassing a fortune of millions of crowns. Quisling's trial will begin in late July or early August.

WILL HELP INAUGURATE OCEAN TRIPS—Capt. (Gil) W. McLaren, skipper of a T.C.A. Lancaster and veteran ocean pilot, who, according to an Ottawa announcement, will help inaugurate T.C.A.'s daily service to Britain this fall, is pictured here signing the Short Snorter's album in the Tea Wing at Dorval Airport, Montreal. Air cadets cluster admiringly around.

This scene at Bradford, Eng., is typical of the enthusiastic way in which voters greeted Prime Minister Winston Churchill during his election tour.

NEGOTIATIONS FOR SELF-GOVERNMENT FOR INDIA HAVE AGAIN REACHED A DEADLOCK

SUGAR DISTRIBUTION

Canadians On Same Basis As Britain And United States

OTTAWA.—The average Canadian, and his sweet-tooth counterparts in the United Kingdom and the United States, were on the same footing in respect to sugar today.

Prices board officials said that with allocation of the sugar supplies available to the three countries, the same average per capita rate of 70.8 pounds a year was being applied. This meant that Canadians were down 24.7 pounds a year from the pre-war average consumption of 95.5 pounds. Through recent regulations the Canadian consumption has been reduced from that of 1944 when the average was 85.5 pounds per capita.

Although the anticipated consumption is based on a per capita rate of 70.8 pounds, officials said it did not follow that each Canadian could expect 1 1/2 pounds of sugar a week, as the allocation to the Dominion has to cover the needs of all sugar users, including the armed forces, bakeries, soft drink manufacturers, restaurants and hotels.

OVERSEAS SERVICE

Many In C.W.A.C. Draft Will Be Going To Europe

LONDON.—The largest C.W.A.C. draft ever to leave Canada has arrived in the United Kingdom with the majority due to replace more than 300 who are slated for repatriation. Others are destined for duty on the continent. The new arrivals staged a colorful March past at Aldershot, where they were reviewed by Lt. Gen. P. J. Montague, chief of staff at Canadian military headquarters. London: Maj. Gen. Dan Spry, commander-in-chief, Canadian reinforcement units, and Lt. Col. Isobel Cronyn, Toronto, deputy director of C.W.A.C. overseas. Those returning to Canada have had two years or more overseas service.

HUGE MASS MOVEMENT OF TROOPS WITH GREATEST AIR RESCUE SYSTEM EVER DEvised

LONDON.—The Allies have bridged the Atlantic with the greatest air-sea rescue system ever devised in dispatching planes and men home from Europe. Many of the men and machines are headed straight for the Pacific.

Great Britain, the United States and Brazil have marked two direct paths across the ocean with chains of ships, stationed like beacons to guide planes along the way and help any which may be forced down.

Brig. Gen. Earl S. Hoag, commander of the European division of

the United States air transport command, described the mass movement of men and machines as the "greatest aerial elevator of all times."

Of 4,157 planes starting across the Atlantic, only two have been lost without trace.

More than 60,000 troops have been flown to the United States since April 20. Another 20,000 will fly there this month, most of them battle veterans with enough points for discharge, or specialists en route to the Pacific.

The U.S. 8th, 9th and 12th air forces are moving en masse.

Much of the air-sea rescue system still is secret. The number of ships cannot be disclosed but a third are British, a seventh Brazilian and the rest are American. The Brazilian cruiser Bahia sank recently while on air-sea rescue duty, presumably after hitting a floating mine.

Two evacuation routes have been marked. The northern passage begins at the British Isles and passes near Iceland to Newfoundland. The southern route starts at Marseille, carries to Casablanca across the hump of Africa over the Ascension Islands to Natal, Brazil. It swings through the Caribbean to the United States.

Long-range land planes stand ready on both sides of the Atlantic and on islands in between to speed to the scene of any crash.

BAN IS LIFTED

OTTAWA.—Permits are no longer required for the importation of automobiles, it is announced in an order-in-council appearing in Canadian war orders and regulations. The restriction, which now has been lifted, applied to motor vehicles of all kinds, electric trackless trolley buses and chassis for vehicles of these types.

AWARDED MEDAL

LONDON.—The Lister medal for 1945, awarded for distinguished contributions to surgical science, has been granted to Professor Sir Edward Florey of the University of Oxford for his work on penicillin and its application to surgery.

CARD OF THANKS

The Elks and Curling Club wish to thank all those outside of their members, who helped in any way to make their carnival such a success.

SURPRISE BIRTHDAY PARTY

On Sunday evening last about thirty friends of Miss Christina Bubniak gathered at her home for a surprise party to celebrate Christina's birthday.

A most enjoyable evening was spent and it passed so quickly that it was 3 a.m. Monday before a halt to the festivities was called and the guests departed for home.

Games of various kinds were enjoyed followed by a delightful supper. The honored guest received many beautiful and useful gifts from her assembled guests, for which she ably voiced her thanks.

MEN—What about your future? With business booming this is a good time to get established in a Rawleigh business—a business of your own with no priorities or shortages to worry about. You need no experience and can use our capital. Write Rawleigh's, Dept. WG-33-152-G, Winnipeg, Canada.

cash values will give us an income.

"But I also have a policy on my own life, because I want him to be able to provide proper care for the children if anything happens to me. Our Mutual Life representative pointed out that Canadian government figures prove that in one case out of every three the wife dies before the husband.

"We chose The Mutual Life in which to insure because of the good reputation of the Company for fair dealing and low cost insurance."

Leta Mutual Life Representative arrange your family insurance.

Another Policyholder Reports...

"MY HUSBAND owns three policies in The Mutual Life of Canada, which he has taken out at various times for my protection and our retirement. Two are Ordinary Life and one is Family Income.

"If anything happens to him and I am left alone to bring up the children, I shall have an income from the insurance, and some cash to pay the bills and a reserve for emergencies. And if he lives to retirement age the
